DISTRIBUTORS**

Warning Label

Use of this product beyond normal residential use or in an application not recommended by seller's guidelines and local building codes will void the seller's and manufacturer's warranty.

Seller does not warrant this product to be stain or fade proof. When installed, cared for and maintained properly, this product is not easy to stain or fade.

Movement, distortion, collapse or settling of the ground or the supporting structure on which this product is installed may affect the integrity of the product and will void the warranty.

Do not burn.

Hot spots can occur when the sunshine reflects off a window or reflective surface, reflecting concentrated "hot spots". These "hot spots" may cause damage, warp, fade, or possibly combust the fencing product and is the sole responsibility of the homeowner or installer to address.

Fencing will heat up when in direct sunlight and hot metal can burn. Use caution.
